ABOUT COMPANY

PT Kimia Farma Tbk is Indonesia's oldest and most prominent state-owned pharmaceutical company, boasting a legacy that dates back to 1817. As an integrated healthcare powerhouse within the Bio Farma Group, it manages an extensive **"end-to-end" supply chain ranging from the manufacturing of active ingredients and branded medicines** to a massive nationwide distribution network and the largest retail pharmacy chain in the country. **Beyond medicine, the company also operates clinical laboratories and health clinics,** playing a vital role in the Indonesian government’s national health initiatives and digital healthcare transformation.

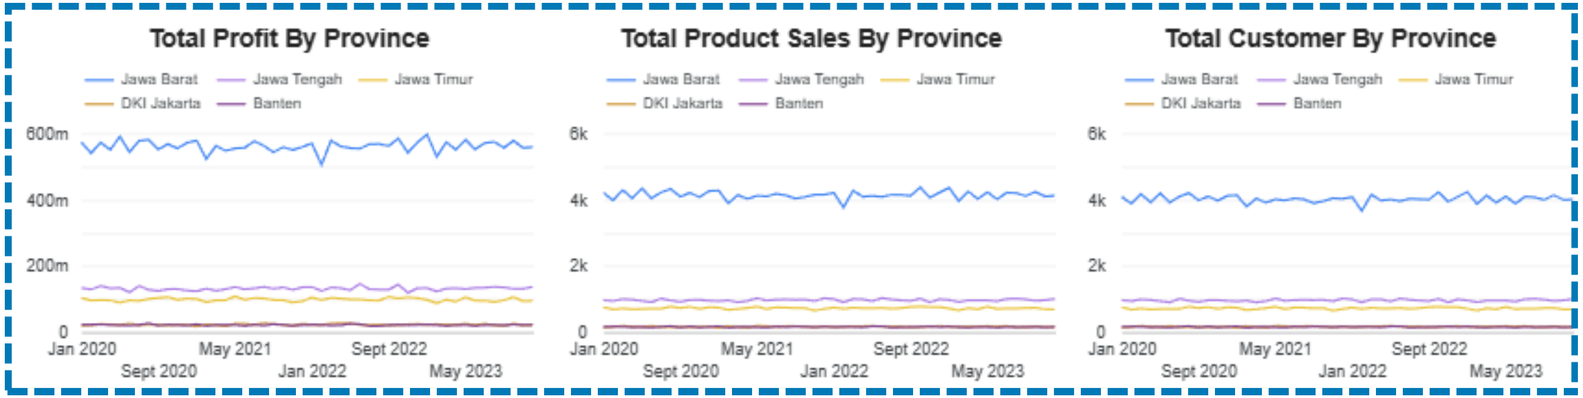
RECOMMENDATION

Filtering By Java Province



Based on the chart, West Java remains the dominant contributor to total sales, whereas sales figures in other regions remain relatively low in comparison

Table By Province in Java

	Branch Name	Province	Total Profit	Total Customer
1.	Kimia Farma - Apotek	Jawa Barat	9,715,215,108.15	54,266
2.	Kimia Farma - Klinik-Apot...	Jawa Barat	9,451,103,658.5	53,264
3.	Kimia Farma - Klinik & Ap...	Jawa Barat	7,774,384,430.5	45,142
4.	Kimia Farma - Klinik-Apot...	Jawa Tengah	2,382,381,705.7	15,913
5.	Kimia Farma - Klinik & Ap...	Jawa Tengah	2,123,509,350.75	14,309
6.	Kimia Farma - Klinik & Ap...	Jawa Timur	2,121,211,409.75	14,374
7.	Kimia Farma - Apotek	Jawa Tengah	1,812,114,291.8	12,242
8.	Kimia Farma - Klinik-Apot...	Jawa Timur	1,333,436,875.25	9,100

1 - 15 / 15

Recommendation: **Conduct a strategic review of market penetration** efforts in East and Central Java. An **aggressive expansion** in these regions is essential to balance the revenue distribution and reduce geographic dependency on West Java.

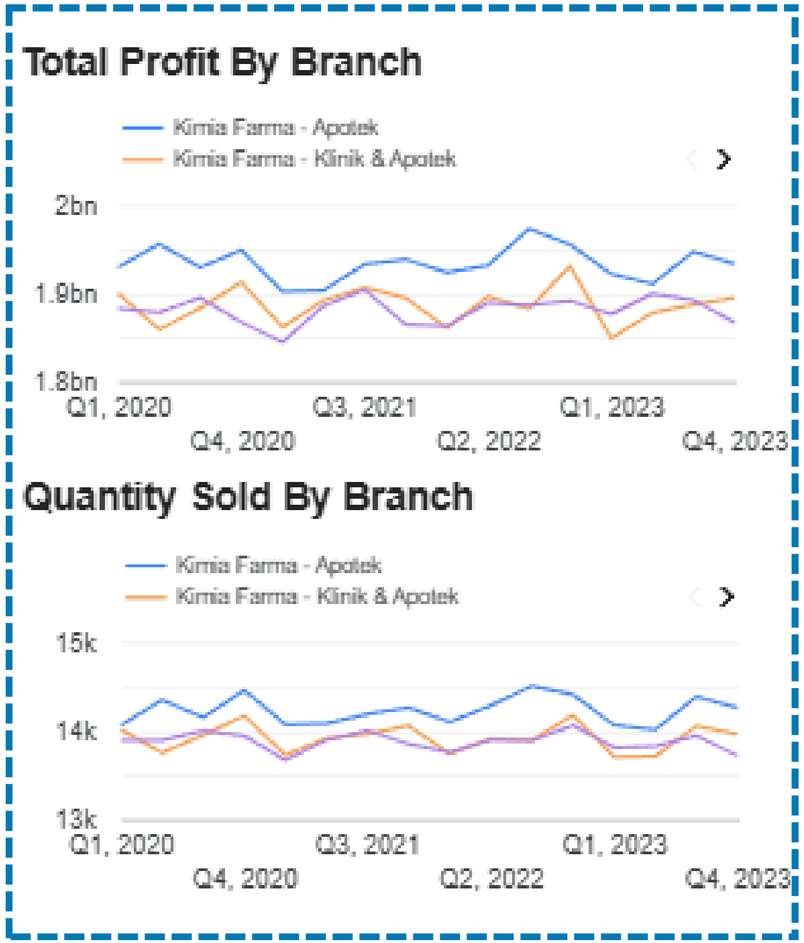
RECOMMENDATION

Filtering By Drone and Drone kits Category



Observing the Quantity Sold vs. Total Profit chart, the trends are nearly identical. This indicates that profitability is highly dependent on sales volume (volume-driven profit)

The recommendation is **Strategically promote Kimia Farma's private label and non-medical products** (such as cosmetics, skincare, and supplements) which offer higher profit margins compared to generic medicines. This shift aims to **boost overall profitability without relying solely on sales volume growth**
